## Director's Update

Dear ATSS students, families, and partners:

I can't believe it's already May! On a personal note, my detox from coffee is going surprisingly well and thanks to our wonderful program staff, ATSS is continuing to engage more students this semester. We have admitted over 200 new participants, and we're not done yet! **We have extended our [application deadline to June 16](#)**, so please feel free to refer any siblings, friends, cousins, neighbors, or other students you know who are looking for resources and assistance with preparing for college. For questions about the application, please reach out to our **Recruitment Specialist, Emily Cripe, at [cripe@sonoma.edu](mailto:cripe@sonoma.edu)**.

Our workshops continue to inform and engage, with over two dozen students and parents attending our **virtual CSU vs. UC workshop** at the end of April. Over the past few days, we welcomed 80 students and parents at our **Transition to College Workshop** and nearly 200 guests at our **ATSS/Upward Bound Piner Senior Awards Ceremony**, which both took place at SSU. We're also in full planning mode for our exciting summer programming--middle school students can look forward to a weeklong **summer camp**, incoming freshmen to a week of **high school skills workshops**, and seniors will be getting a weeklong **college application bootcamp**.

As always, stay tuned for more updates!

*-Ms. Penning*

## FIND OUT HOW ATSS HAS HELPED OUR STUDENTS!

ATS is essential for my college path, I am a first generation college applicant and the guidance of ATS is allowing me to move forward to success.

**-Junior at Cardinal Newman High School**

ATS has helped me in various ways. One of the biggest things I appreciate them for is being involved in my future by informing me about college info. ATS hosts many meetings at my school talking about how to fill out college apps and CSU/UC's requirements which made me more aware of what I needed to do and how to do it. I would also like to add that they helped pay for my CSU applications which has allowed me explore different universities..
