

# Upward Bound Sonoma & Napa Programs

WELCOME TO OUR

## Fall 2025 Newsletter

### Highlights from Fall Saturday Academy

As we approach the conclusion of our Fall 2025 Saturday Academy, we're celebrating a semester filled with learning, connection, and growth.

We were delighted to welcome several Upward Bound Piner students, who joined students from Sonoma and Napa Programs to take part in engaging courses, including Biology and Ethnic Studies. Students also gained valuable insights into college readiness, exploring scholarship opportunities and SAT/ACT preparation.

Our final session aligns with Sonoma State University's Preview Day, providing our seniors with an exciting opportunity to experience campus life firsthand and explore their next steps toward higher education.

### A New Home for PCP!

We're pleased to announce that our office will be relocating at the end of October! Our new space, located by Schultz Library in the former Charlie Brown's building, will bring us closer to our Student Support partners and help us serve our community even better.

## **Wrapping Up a Wonderful Fall**

With our Academy sessions wrapping up, we're turning our focus toward supporting our seniors as they begin their college and FAFSA applications.

Over the years, these students have had the opportunity to visit and explore numerous CSU, UC, and private institutions throughout California, helping them identify their academic and personal aspirations.

We're eager to continue guiding them through this next stage and look forward to celebrating their achievements in the months ahead.

## **What's Coming This Spring Semester**

We have an exciting Spring semester ahead, filled with fun and memorable events!

This March, we'll be celebrating our seniors' incredible achievements in the college application process with a special trip to Southern California. After all their hard work, they'll get the chance to explore educational and cultural sites around Los Angeles, and enjoy some well-deserved rest and sunshine!
